Jurnal Teknik Sipil (JTS) ISSN: p.1412-3576 e. 2621-8429 is a journal published by the Department of Civil Engineering, Universitas Tanjungpura (UNTAN), Pontianak, West Kalimantan, Indonesia.

This journal publishes the results of research, studies, concepts, and policies in the field of civil engineering that has never been published through a peer review process by reliable reviewers in the related field with a national and international reputation.

In this edition, JTS publishes 11 articles that have been selected and considered to be of high quality and meet standards with various themes. Hopefully, in the subsequent editions, JTS can publish more quality articles.

Pontianak, June 17, 2022
